ZJK Joins XPO MSA to Expand Market Opportunities for Precision Hardware in High-Density AI Optics

November 4, 2026

SHENZHEN, China, Nov. 04, 2026 (GLOBE NEWSWIRE) -- ZJK Industrial Co., Ltd. (NASDAQ: ZJK) (“ZJK” or the “Company”), a high-tech precision parts and hardware manufacturer serving artificial intelligence (AI) infrastructure, consumer electronics, electric vehicles, aerospace and other smart technologies, announced that it has become a member of the eXtra-dense Pluggable Optics (“XPO”) Multi-Source Agreement (“MSA”), an industry initiative to define a new optical transceiver form factor designed to meet the massive bandwidth, reliability, and density requirements of hyperscale AI data centers. The Company believes this membership will further deepen ZJK’s industry engagement and open new avenues for collaboration on advanced engineering solutions for next-generation applications, including optimized fastening, latching, and liquid-cooling technologies for high-density AI data center hardware.

The U.S.-based industry consortium creates open specifications for next-generation high-density liquid-cooled pluggable optical modules to keep pace with the performance demands of new AI infrastructure. It unites global industry leaders to standardize mechanical, electrical, and thermal interoperability requirements for hyperscale AI data centers, with the aim of supporting optical and electrical interchangeability across multiple vendors, accelerating the deployment of AI interconnect hardware, and bolstering supply chain resilience.

ZJK’s management stated, “Through our participation in the XPO MSA, we are bringing our precision component expertise to the consortium to support the development of mechanical and thermal designs compatible with evolving XPO specifications. In parallel, we expect to gain greater visibility into evolving industry specifications and seek opportunities to collaborate with leading ecosystem partners to refine our fastening, latching and liquid-cooling offerings. We aim to engage in early-stage design collaboration, streamline product validation, and pursue new AI infrastructure opportunities. We believe our participation may also help expand our engagement with potential customers in the hyperscale data center ecosystem and identify opportunities for precision components used in high-density AI optics infrastructure and next-generation data center hardware.”

About ZJK Industrial Co., Ltd.
ZJK Industrial Co., Ltd. is a high-tech precision parts and hardware manufacturer serving artificial intelligence (AI) infrastructure, consumer electronics, electric vehicles, aerospace and other smart technologies. With over 15 years in the precision metal parts manufacturing industry, the Company maintains a skilled professional team, a series of highly automated and precision manufacturing equipment, a stable and diversified customer base, and comprehensive quality management systems. ZJK mainly offers standard screws, precision screws and nuts, high-strength bolts and nuts, turning parts, stamping parts and Computer Numerical Control (CNC) machining parts, CNC milling parts, high precision structural components, Surface Mounting Technology (SMT) for miniature parts packaging, and technology service for research and development from a professional engineering team. Forward-Looking Statements
Certain statements in this announcement are forward-looking statements. These statements include the expected benefits of the Company’s XPO MSA membership, its plans for engineering collaboration and product development, and potential customer, market and revenue opportunities. These forward-looking statements involve known and unknown risks and uncertainties and are based on the Company’s current expectations and projections about future events that the Company believes may affect its financial condition, results of operations, business strategy and financial needs. Relevant risks and uncertainties include changes in industry specifications and adoption, the Company’s ability to develop XPO-compatible components, satisfy customer qualification requirements and secure customer orders, and whether its participation results in commercial opportunities. Investors can find many (but not all) of these statements by the use of words such as “may,” “will,” “expect,” “anticipate,” “aim,” “estimate,” “intend,” “plan,” “believe,” “likely to,” “propose” or other similar expressions in this announcement. The Company undertakes no obligation to update or revise publicly any forward-looking statements to reflect subsequent occurring events or circumstances, or changes in its expectations, except as may be required by law. Although the Company believes that the expectations expressed in these forward-looking statements are reasonable, it cannot assure you that such expectations will turn out to be correct, and the Company cautions investors that actual results may differ materially from the anticipated results and encourages investors to review other factors that may affect its future results in the Company’s filings with the U.S. Securities and Exchange Commission.
